### Registration

Paris Convention priority can be claimed. Once the registration is complete the Office will issue a Certificate of Registration.

### Classes

The International Classification system is used. Multi-class applications are allowed.

### Searches

In order to conduct a search the documentation required is the name of the trade mark, the registration number (if available) and one copy of the mark (unless mark is word only). The result can usually be provided in three working days.

### Renewal

A trade mark registration is valid for 10 years after which it can be renewed for like periods. Two months before the renewal date we will send you an Expiry Notice asking whether you wish us to renew the registration or allow the mark to lapse. If the registration is to be renewed the only documentation required is a copy of the Certificate of Registration.

The application for renewal should be filed prior to the expiration date of the registration. A grace period of three months, however, is allowed from the expiration date for the filing of the application for renewal upon payment of a late fee. After that time a new application for registration is required.

It usually takes four weeks or less for the Office to process an application for renewal. Once the renewal is complete the Office will issue a Renewal Certificate.

If you do not wish to renew the mark please inform us so that we can advise the Office accordingly.
